

May 29, 2020

Hello,

Due to not having any additional results back at the time I sent out my last notice to all of you (5:00 pm yesterday), and my being here until quite late last night, we received more results via fax. This is being sent as a quick update as I believe it may have already hit the news media. I will send another official update later today with additional plans we have put in place.

We received results for all but one resident on the 4th floor as of last night. An additional 3 residents on the 2nd floor have tested positive for a total of 31 in the facility. All residents' families with a positive outcome were contacted last night. We are waiting for an additional 1 test results.

In addition, the state came in yesterday and did a random test on 25 staff members; we are awaiting the full results to come in today.

This coming Sunday all staff and all residents will be tested by the state. This will give us additional information and a more accurate update on everyone in the facility.

Sincerely,
Joe Bohunicky, NHA, MBA, Administrator
