

December 13, 2020

Hello Everyone,

This is an official update on our current status.

On Saturday, 12/12/20, we had a dietary member who we tested at the facility and was found to be positive. As a result we are having 4 additional staff be out of work for a 14 day quarantine period. This has not changed the operations in the kitchen and we will be able to continue with day to day operations. This employee had no contact with residents, and did not go onto the nursing units.

The positive case was reported to all the required agencies, and we continue to be in “outbreak” status. We continue to be in Phase 0; closed to admissions; all residents on precautions; staff are in full PPE; no group activities; no dining in groups; and no visitation except for compassionate visits. We will stay in Phase 0 until we have 14 days with no positive results.

All staff are being tested on Monday 12/14/20; all residents will be tested on Tuesday 12/15/20.

The following is in place:

- We will continue to check for symptoms on all residents three times a day.
- All staff continues to be screened before entering the facility.
- We continue to test all staff weekly.
- We are closed to new admissions.
- All residents are on precautions.
- Staff are in full PPE (personal protective equipment).
