

February 1, 2021

Good Afternoon Everyone,

This is an official update on our current status.

Yesterday and today we discovered that 4 residents and 1 staff member tested positive for COVID. As all staff tested last week were negative, we are in the process of figuring out where the positive cases originated. There were two residents on the Annex and two residents on the 2nd floor; one on the east side and one on the west side. All family members have been notified.

This has been reported to all the required agencies, and we have gone into “outbreak” status; now back in Phase 0. We will stay in Phase 0 until we have 14 days with no positive results.

All staff are being tested again today and all residents will be tested on Friday (2/5) by the National Guard.

The following is in place:

- We will continue to check for symptoms on all residents three times a day.
- All residents are on precautions: no group activities; no dining in groups, and no visitation except for compassionate visits.
- All staff continues to be screened before entering the facility.
- Staff are in full PPE (personal protective equipment) on all floors.
- We continue to test all staff bi-weekly.
- We are closed to new admissions.

Sincerely,

Joe Bohunicky, NHA, MBA, Administrator
