January 12, 2022

Hello Everyone,

We have had 2 residents on the 4th floor and 2 additional staff test positive.

Position	Last Worked	Floor
LNA	1/7	2
Laundry	1/10	-

One resident may have contracted it through a visitor as the visitor tested positive; the other resident we are not sure of at this time; both have been quarantined.

The staff positive cases originated outside of the facility. Both are out on quarantine. Staff had full PPE on (N95 and surgical masks and eye protection), which substantially reduces the chance of infecting anyone. Staff can now return to work on day 8 with a negative test.

We are testing residents and staff Mon-Thur. this week.

The following interventions continue to be in place:

- All other staff are wearing a surgical mask, an N95 and eye protection at all times and in all resident/patient care areas.
- All residents are assessed for signs and symptoms of Covid-19, 2 times a day and if there is a noticeable change in their condition.
- We screen all staff, visitors, vendors, and other healthcare providers upon entering the building.
- We are testing following outbreak guidelines which is once weekly of all staff and residents.

Sincerely,
Joe Bohunicky, NHA, MBA, Administrator
