August 7, 2022

Hello Everyone,

We learned yesterday that an LNA tested positive; they last worked on 8/6.

All residents are monitored for any change in symptom's twice daily and can be tested with an antigen test if/when needed.

Due to the positive test results we will remain in an outbreak status for another two weeks if no other positives occur.

The following interventions continue to be in place:

- All staff are wearing a medical mask and eye protection at all times in all resident/patient care areas (full PPE for any resident(s) in quarantine or isolation, N95, eye protection, gowns, gloves) (Staff not up to date on vaccinations will also wear a N95 and eye protection in resident areas on third floor)
- We are still keeping each resident floor separated from each other, and trying to limit the size of group activities, and when permitted and when outside, use social distancing and masks.
- Residents on all floors can be out and about with a mask.
- All residents are wearing and being reminded to wear a mask when out of their room, **when with a visitor**, and during care, (difficult on 3rd floor).
- All residents are assessed for signs and symptoms of Covid-19, 2 times a day and if there is a noticeable change in their condition.
- We screen all staff, visitors, vendors upon entering the building.
- We are currently testing weekly all staff and residents. We are also doing an antigen test as needed for staff and residents if anything is suspected.

Sincerely,

Joe Bohunicky, NHA, MBA, Administrator
Mt. Carmel Rehabilitation and Nursing Center
