Hello Everyone,

We learned yesterday that a receptionist got tested outside of the facility on 9/14 and was positive, she last worked on 9/7/22. We also received some test results back today and an RN tested positive; she last worked on the 12th.

We still have one resident in isolation until Sunday but, no other residents are positive.

Due to these positive cases, we will remain in an outbreak status for another two weeks.

Not all tests have come back from our testing done this week.

The following interventions continue to be in place:

- All staff are wearing a medical mask and eye protection at all times in all resident/patient care areas (full PPE for any resident(s) in quarantine or isolation, N95, eye protection, gowns, gloves) (Staff not up to date on vaccinations will also wear an N95 and eye protection in resident areas on third floor)
- We are keeping each resident floor separated from one another, and trying to limit the size of group activities, and when permitted and when outside, use social distancing and masks.
- Residents on all floors can be out and about with a mask.
- All residents are wearing and being reminded to wear a mask when out of their room, **when with a visitor**, and during care, (difficult on 3rd floor).
- **All residents are assessed for signs and symptoms of Covid-19, 2 times a day and if there is a noticeable change in their condition.**
- We screen all staff, visitors, vendors upon entering the building.
- **We are currently testing weekly all staff and residents. We are also doing an antigen test as needed for staff and residents if anything is suspected.**

Sincerely,

Joe Bohunicky, NHA, MBA, Administrator
Mt. Carmel Rehabilitation and Nursing Center
