April 25, 2023

Hello Everyone,

Wanted to let you know that the City of Manchester cleared us yesterday of our COVID outbreak. YEAH!

Also, that the community transmission is at a "Moderate" level. What does this mean? We no longer have to wear masks and neither do our visitors. YEAH!

We have updated the posting at the front door as you enter for the most up-to-date information. If the community transmission changes or we go back into an outbreak status the masks will come back. BOO!

Can you believe, it's been since March of 2020 that we have had masks on. It's sure nice to see the smiles once again 😊

The following interventions are currently in place:

- All residents are assessed for signs and symptoms of Covid-19, 2 times a day and if there is a noticeable change in their condition.
- We are also doing an antigen test as needed for staff and residents if anything is suspected or they present with a symptom.
- Staff on all floors will wear full PPE for any resident(s) in isolation, (N95, eye protection, gowns, gloves), (none at this time).

Sincerely,

Joe Bohunicky, NHA, MBA, Administrator
Mt. Carmel Rehabilitation and Nursing Center
