

October 4, 2023

Hello Everyone,

Another update on COVID.

We have four new cases in the building. Yesterday;

- One resident on 3rd floor
- Three residents/patients on 4th floor
- One LNA for 4th floor.

We will continue twice weekly testing of residents and staff using the antigen tests.

We continue to be in “outbreak” status by the city of Manchester Health Department, (effective 9/17/23).

The following interventions continue to be in place:

- Staff on all floors are wearing a medical mask and eye protection at all times in all resident/patient care areas.
- All positive residents are on isolation in their room.
- Staff on all floors will be wearing full PPE for any resident(s) in isolation, (N95, eye protection, gowns, gloves).
- All residents on all floors are being reminded to wear a mask when out of their room, when with a visitor, and during care (a bit difficult on third floor).
- All residents are being assessed for signs and symptoms of Covid-19 and if there is a noticeable change in their condition.
- We are also doing an antigen test as needed for staff and residents if anything is suspected.

☞ **Visitors are encouraged** but not required to wear a mask when visiting

Please remember if you have any sniffles it may not be allergies it could be the start of COVID. We highly recommend that you test yourself and keep those around you safe. There continues to be an uptick of COVID cases in NH.

Sincerely,

Joe Bohunicky, NHA, MBA, Administrator
